

Marked Gain in Traffic Via Huntingdon

There was a marked increase in both Canadian and American motor travel through the Huntingdon-Sumas customs port during the Canadian and American holiday week-end July 1 to July 4, as compared with travel during the same four days in 1937.

In the four-day period 996 Canadian cars containing 3485 passengers went south through Huntingdon and 668 American cars containing 2338 passenger came north by this port. In 1937 in the same period, 677 Canadian cars and 2370 passengers went south and 450 American cars with 1575 passengers came north through Huntingdon.

In both years approximately 50 per cent. more Canadians went south during the holiday period by this route than Americans came north, by this route. The gain in traffic this year is roughly in the same proportion. The figures indicate, however, that more Americans stayed over night or longer in this country than did Canadians visiting points south of the boundary.

Work Starts On Surfacing of Highways

Installation of the extensive mixing plant of Columbia Bitulithic Ltd., on the Clearbrook road just south of the Trans-Canada highway, was completed Tuesday and it is expected the first batch of material for the highway surfacing work to be done in this area will be turned out today.

Trans-Canada Highway
Preliminary work was done on the shoulders of the main highway Tuesday by grader and first material from the plant will be used to bring the foundation surface up to 20-foot width. An average 2-inch recapping coat will follow on nearly five miles of highway west of Abbotsford.

Cross-Valley Link
The spray tank traversed a portion of the Abbotsford-Clayburn section of the cross-valley highway between Abbotsford and Mission on Tuesday, spraying a primer coat on the fill preparatory to the surfacing operations that are to follow. Two and one-third miles of the unpaved portion of this important connecting highway are to be black paved this year.

MRS. YARWOOD AND MRS. S. D. TRETHERWEY HURT IN CAR CRASH

Mrs. C. Yarwood of Huntingdon sustained a lacerated head and Mrs. S. D. Tretthewey of Vancouver a lacerated leg when cars driven by Mrs. Yarwood and Ernest Fowler, 23, of Vancouver, collided Tuesday in Vancouver. Others injured were Miss Minnie Torry, 20, and Charles Clark, 21, both of Vancouver. Both cars overturned and were badly wrecked. Injured were taken to the General Hospital.

PREPARING PRIZE LIST FOR ANNUAL CENTRAL F.V. FAIR

Judges whose services the committee felt were desirable at the 1938 Central F.V. Fair at Abbotsford were selected at a meeting of the fair board held last Saturday. Acceptances are now being sought. Secretary Kettle and Mr. D. F. Stafford visited New Westminster and Vancouver, respectively, on Monday seeking advertising and subscriptions for the prize list.

WOMEN'S INSTITUTES

Mrs. J. D. Leavitt, representing Upper Sumas W.I., Mrs. Harry Beetstone, official delegate from Huntingdon W.I., of which she is president, and Mrs. Stinson on behalf of Aldergrove W.I., attended the provincial convention of the Women's Institute movement in B.C., held at Vancouver on Thursday, Friday and Saturday. Mrs. J. W. Winson also attended the meetings.

Mr. A. Hulton-Harrop left Abbotsford Tuesday evening on a week's fishing trip.

James Anderson, secretary, and Harry Peachey have been appointed delegates to represent Abbotsford Sumas and Matsqui at the Dominion convention of the Canadian Legion, Vancouver, August 4-6. A. Webb attends as alternate delegate.

Engineering Marvels at Vancouver

The Empress of Japan, Queen of the Pacific, passing under the splendid new bridge now under construction across the First Narrows, the entrance to Vancouver's landlocked harbor. The mainmast of the vessel is 195 feet above her load line, the bridge being 209 feet above high Spring tides. The Canadian Pacific liner Empress of Japan, in addition to holding all the speed records on her Canada, Hawaii, Orient run is the largest ship entering Vancouver Harbor. The illustration clearly shows the magnitude and the beauty of both ship and bridge.

EX-FIRE BRIGADE TO REMAIN INTACT AS FIRST-AID UNIT

At a meeting of members of the old Abbotsford Volunteer Fire Brigade held on Monday night it was decided by formal resolution to keep the organization intact and hold regular practices in first aid and also in salvage work. Instruction is being arranged and regular meeting dates will be announced.

Hospital Had 57 Patients During June

Report of the matron of M.S.A. General hospital for the month of June reveals 31 patients were admitted to the institution during the month. There were 18 patients in hospital on June 1 and eight births occurred, making the total number of patients 57. There were two deaths at the hospital, 44 patients were discharged and 11 remained in hospital at July 1. Out patients numbered six.

Total number of patient days was 462, made up of: T.B. patients, 8, baby days, 102, other patient days, 352.

Sumas patients led in June with a total of 183 patient days, Matsqui was a close second with 183, while credited to patients from unorganized territory were 57 days, to Abbotsford 10, Langley 8 and Vancouver 2 days.

Ted Porter of Sumas Prairie, writing Alvin Webb from Chippawa, Ontario, in the course of a motor trip East and South, reports a fine time with the exception of wet weather near the Great Lakes.

British Columbia is fifty thousand square miles larger than the combined Pacific Coast states of California, Oregon and Washington.

Miss Henry and Thomas Rottluff Married in Ceremony at Bradner

At eight o'clock on Monday evening in the Presbyterian church at Bradner, Janet Helen, elder daughter of Mr. and Mrs. Henry of Bradner, became the bride of Mr. Thomas Rottluff, son of Mr. and Mrs. G. H. Rottluff of Matsqui.

Given in marriage by her father, the stately bride was preceded by two little flower girls carrying baskets of pink carnations, roses and white snapdragon. Mrs. K. Bloomfield attended her sister as matron of honor and Miss Charlotte Rottluff attended as bridesmaid. Little Richard Rottluff, nephew of the bridegroom, acted as train bearer. Snow white satin fashioned the Elizabethan bridal gown which was moulded to the figure, with long puffed sleeves and insets of honiton lace featuring the neckline, while her court train swept out from the waist. Her embroidered net veil cascaded in diaphanous folds from a coronet of seed pearls and orange blossom. Her flowers were sweetheart roses and valley lilies, showered with white streamers and tied with a white satin bow.

The matron of honor was gowned in a frock of mauve net over taffeta, featuring short puffed sleeves and full skirt with graduating bands of matching satin. Her head-dress was mauve and yellow, with a cluster of contrasting flowers, while her bouquet was pink carnations and rose buds.

The bridesmaid chose a gown of ciel blue lace over taffeta in redingote style, with which she wore a quaint headress in pink and blue, and matching pink slippers. Her flowers were carnations and roses. The two little flower girls wore pink and blue organdie frocks, with wreaths of forget-me-nots on their hair. They carried baskets of roses and snapdragon, and strewn rose petals in the path of the bride. The

little train bearer wore white satin and velvet.

The groom was supported by his brother, Mr. Howard Rottluff.

The ceremony, which was held beneath a floral arch of pink and blue flowers, flanked by standards of Madonna lilies, was performed by Rev. Munroe of Chilliwack. Mrs. Frank Thompson provided the nuptial music, and during the signing of the register, Miss E. Jones sang "I Love You Truly".

At the reception which was held in the hall, the couple were assisted in receiving by the bride's mother, wearing a gown of dove grey voile corsage of dusty pink carnations, and by Mrs. Rottluff Sr., who chose a gown of iris blue lace with bolero jacket and corsage of pink roses and maidenhair fern.

A four-tier wedding cake occupied the place of honor at the bride's table when two hundred guests sat down to the wedding supper, at which Girl Guides acted as servitors. Pouring coffee were Mrs. McMahon and Mrs. E. Lidstrom. Mr. D. Nicholson of Mt. Lehman was the toastmaster.

Following the reception, the bride changed to a grey wool tulle, accented by red and grey accessories. Her corsage was of red rose buds. After a wedding trip to California by way of Boulder Dam and Salt Lake City, Mr. and Mrs. Tom Rottluff will reside in Matsqui village, in the modern bungalow erected for them.

FIELD DAY FOR TOBACCO GROWERS

Tobacco Field Day will be held on Saturday when all persons interested are invited to meet at the old Spencer farm, Sumas Prairie, at 2 p.m. and join a tour of the principal plantations. Moving pictures will be taken during the afternoon.

Underwriters' Engineer Probes Fire Department Situation in Abbotsford

F. F. Dowling, chief engineer of the British Columbia Insurance Underwriters' Association, Vancouver, responded to the request sent by Abbotsford Ratepayers' Association which sought an authoritative investigation of the fire fighting equipment and existence of a capable brigade in Abbotsford.

Many Interviews
Mr. Dowling spent Friday interviewing all parties interested in the fire department situation. He met the Village Commissioners, President E. S. Plaxton, J. S. Daly and H. S. Andrews of the Ratepayers' Association, the editor of The News, Ex-Chief C. F. Weir and members of the old volunteer brigade, Chief A. Hulton-Harrop and members of the brigade recently organized by the latter at the request of the Commissioners.

Attends Meeting
In the evening, Mr. Dowling spent nearly an hour in conference with the Commissioners prior to their regular meeting. This session was in camera, but Chairman Gilmour reported at the business session

which followed that Mr. Dowling had outlined the procedure in training a brigade and a program of acquiring equipment deemed necessary in the adequate defense against fire in a town the size of Abbotsford. Mr. Dowling informed The News that he had promised the Commissioners to provide this information in writing and that he would return within two months to investigate progress.

Brigade 16 Strong
Chief Hulton-Harrop and deputy chief Harry Conway Sr. attended the Commissioners' meeting and reported progress. Eleven of 16 signed members of the new brigade had attended a practice earlier in the evening, the chief reported, and a further practice and meeting had been called for Monday evening. A list of equipment and attachments desirable immediately has been compiled, he said. Earlier practices had not been held due to the lack of reserve supplies of soda. A missing fire ladder equipped with hooks was

\$3610 DAMAGES AWARDED M'GARVA ON COUNTER-CLAIM

Following the dismissal of an action of Irving S. Parberry of Huntingdon against John McGarva of Abbotsford, Mr. Justice Manson in Supreme Court awarded McGarva \$3610 damages on a counter-claim against Parberry.

The suit arose out of an alleged contract for the sale of a truck and milk-hauling and freight business. An injunction, which Parberry obtained on April 8, restraining the defendant from dealing with the business was dissolved.

Inspectors Seek Source of Radio Interference

Two inspectors from the Radio Division, Department of Transport, spent Monday in Abbotsford and Gifford district.

Asked by The News if they were in Abbotsford in response to complaints of poor broadcasting reception in the town, they expressed surprise. They stated no complaints had been received from Abbotsford at the Vancouver office. They were on their way to Gifford where interference detecting equipment in their car picked up a disturbance in Abbotsford and they had stopped to trace it.

When informed of complaints they obligingly prolonged their stay in town and toured the streets with the detector car. A variety of sources of minor disturbances were located, but no major trouble was in evidence during their visit.

The inspectors pointed out that interference filters are available at moderate cost for attachment to household appliances, electric razors, and other disturbance-creating devices. Attachments are also available, they said, that will reduce the tiresome "background" noise frequently heard during reception.

Part of Extra Relief Burden To Be Lifted

A portion of the additional relief burden placed on municipalities early this year, was lifted as a result of the determined visit of the executive of the Union of B.C. Municipalities and the Fraser Valley Reeves' Association to Victoria on Thursday.

At a second conference between the municipal representatives during the day, the provincial government agreed to assume 40 per cent of the cost of relief paid to unemployables, the whole burden of which had been placed on the municipalities on March 1. The relief to the municipalities is retroactive to April 1.

The concession is variously estimated to life from \$200,000 to \$300,00 of the extra burden from the municipalities.

The first conference of the day with the Premier and Cabinet was somewhat strained and the deputations left it later to place their case before Hon. A. Wells Gray. Mr. Gray successfully interviewed Hon. John Hart, minister of finance, and Premier Pattullo and the premier met the delegation at 4 p.m. and announced the concession.

Reeve George Cruickshank attended on behalf of Matsqui.

HARRY ILLSLEY

Plant of the Clayburn Brick Company was shut down on Wednesday afternoon to permit employees to attend the last rites for Harry Illsley, whose death occurred on July 3. The late Mr. Illsley had been in the employ of the company for more than 20 years and was widely known as testified by the large attendance at the funeral service held at 3 p.m. from the Henderson Funeral Home. Mr. C. J. Ball officiated at the services and interment was in Hazelwood cemetery. Pallbearers were Chas. Keeping, Chas. Gough, Arthur Barker, Murdoch McKinnon, Jack McDonald and Fred Holstbaum.

VERDA THELMA M'GARVA

Many beautiful floral tributes and a large attendance of friends marked the funeral services held for little Verda Thelma McGarva, 16-months-old daughter of Mr. and Mrs. Lester McGarva, whose death occurred under tragic circumstances on July 4. The services were held at 10 a.m. on Wednesday, July 6, from the Henderson Funeral Home to Musselwhite cemetery, Rev. Angus Cameron officiating.

TIME TO DESTROY NOXIOUS WEEDS

Warnings are issued by the corporations of Sumas and Abbotsford that owners and occupiers of land are responsible under the Noxious Weeds Act for the destruction of such weeds to prevent their germination.

The law requires owners and occupiers of any land shall also destroy noxious weeds on the land adjoining between the property line and the centre of the road.

Gaps In Surfaced Highway Links Are Shortened

Action of the Provincial Government in narrowing the gaps of rough, dusty, unpaved sections of highway linking the important provincial, national and international traffic arteries is to be commended. In the program recently announced and under which work has already been commenced, all three municipalities in this area benefit directly and thousands of motorists from beyond their confines indirectly benefit.

The road surfacing plan adopted by the government and which has done much to improve motoring conditions in British Columbia, represents a comparatively small capital expenditure but to be successful requires building up over a period of years.

Initial surfacing, asphalt mulch, is to be laid on two and one-third miles of the Abbotsford-Mission road, a heavily-travelled cross-valley highway. This will extend surfacing from the concrete at the north boundary of Abbotsford to the railway crossing at Clayburn, approximately cutting in half the dust gap existing between Abbotsford and Matsqui.

Nearly five miles of recapping is to be done on the Trans-Canada highway westward from Abbotsford. This is one of the final stages in providing a utility highway surface for comparatively sparsely populated British Columbia. This process provides substantial extra thickness of pavement and widens the 18-foot roadway to 20 feet. Presumably this work will be extended from year to year until our improved highways may be called semi-permanent.

A pleasant surprise after the Upper Fraser Valley had been staggered by the abrupt termination of its hopes for the "C" street project of providing a fitting highway link between the Trans-Canada highway and Washington highway system at Sumas-Huntingdon, is the paving of a mile of existing "C" street. This completes paving from Huntingdon to Vye road. Perhaps the Customs Port data, indicating by comparative Canadian-American traffic figures that Americans shun this route to the province because of the unfortunate condition of the short link to the provincial highway system, may at least secure a dust-laying coat on the two remaining miles of dirt road to Abbotsford. (Actually this should be a Dominion project as the Dominion collects the Customs revenues and should be responsible for creditable gateways into Canada.)

These jobs, duplicated as they are in most other sections of the province, will represent when completed a further marked improvement in our highways. Perhaps they do not represent all that is desired or hoped for but no doubt the government is equally disappointed in this. At any rate, a year is a short period after all and an equal amount of work a year from now will practically close the gaps and eliminate the present unfortunate conditions.

What Highways Mean To Province

Approximately four million dollars circulated through British Columbia during the first six months of 1938, brought here by 14,005 passengers in 33,316 motor cars from across the United States border.

Tourist traffic through ports of Pacific Highway, Douglas, Huntingdon and Aldergrove for the first half of the year was the largest since 1931, according to the figures released by Vancouver Tourist Association.

"Length of stay of each tourist is steadily increasing", according to R. A. Hutchinson, manager of the tourist bureau, who states: "Traffic to the Cariboo is heavier than it has ever been, and I think it is safe to say that most tourists stay at least a week in Vancouver."

The average carload of tourists spends about \$5 per person per day, according to Mr. Hutchinson.

Egg Prices Higher on F.V. Market

A two-cent jump in egg prices featured price changes in the Fraser Valley market. Lower production, the approach of the moulting season and higher feed costs contributed to the stiffer egg prices. Returns to producers are now 25 cents a dozen for grade A large, 23 cents for medium and 20 cents for pullets, the pullets being up one cent. Reaff prices averaged 31 cents for grade A large, 29 cents for medium and 24 cents for pullets. Raspberries sold at three boxes for 25 cents, or \$1.50 crate. Loganberries and currants brought three boxes for 25 cents. Huckleberries appeared at 5 cents a box. Wild blackberries sold at from 10 cents a box to two for 25 cents. Black caps, reported scarce, were offered at \$2.40 a crate.

All vegetables were plentiful and on the cheap side. New potatoes are lower at 10 pounds for 25 cents.

FOUR BEST CALVES WILL BE SHOWN AT REGIONAL EXHIBITION

Calves entered by the members of the Abbotsford Calf Club will be judged at the Central F. V. Fair, Abbotsford, and the four best will be shown at the Regional Fair, Chilliwack, it is stated by D. Hunt, vice-president of the C. F. V. Fair. There are more than a dozen members of the calf club including: Terence Short, Fred Phillips, Edwin Tracey, Alan Chalmers, Malcolm Wright, Ted Conway, Hugh Hunt, John Derksen of Abbotsford, and Gordon McDonald, Philip Harvey, Clifford Orrock and Douglas Taylor of Mt. Lehman.

TOBACCO GROWERS IN QUEBEC GIVEN \$100,000 LOAN

It is expected that a total of about 2,000 acres of flue-cured tobacco will be planted in the Province of Quebec during 1938. Considerable activity is being displayed by the tobacco growers of the Joliette district in the production of flue-cured tobacco and a flue-cured tobacco co-operative association was established early in 1938. The total acreage planted this year by the co-operative is about 1,000 acres. The co-operative obtained a loan of \$100,000 at a low rate of interest from the Provincial Government for the erection of their plants and for carrying on operations.

British Columbia has an area equivalent to that of the United Kingdom, France, Netherlands, Belgium and Denmark.

Sumas Farm Not Affected By Drought - Tile Drainage Becomes Irrigation System

Some years ago, Mr. J. Hodgekiss, engineer for Messrs. Horie and Bayne's Port Haney Brick and Tile Co., Ltd., installed a complete drainage system on the Ord farm on Sumas Prairie.

The tile system, complete with discharge sump pit, was installed to drain the surface water from this farm, and thus allowing tilting of the soil almost immediately after heavy rains as well as very early in the spring.

As a drainage system the tile worked perfectly and increased the subsequent annual crops over 100 per cent.

This year, during the 60 days of dry weather, through the co-operation of the Sumas Commissioners,

water was allowed to back up in the main ditches and lateral drainage canals until it was over the top of the outlet pipe from the sump pit located on the Ord farm.

The result was that the water flowed from the canal into the sump pit and back into the field through the drainage tiling system and was brought to the surface by surface cultivation. The ground on this piece of land has never been dry this year and the drainage system has proved to be a perfect and complete irrigation system.

The result of this double acting tile system is a field of Fuggle hops unequalled on the Pacific coast and it is a sight well worth seeing.

INSPECTION ORDERED FOR EXPORT CATTLE

Hon. J. G. Gardiner, minister of agriculture, announced that after June 30, all Canadian cattle exported to the United States, other than those for immediate slaughter, must be accompanied by a veterinarian's certificate showing that they have been tested within 30 days of shipment and found to be free of bovine tuberculosis.

Maple Ridge Co-operative Exchange has shipped over 1,200 barrels of strawberries (350 lbs. per barrel) to the British Isles, up to Friday. It has also booked orders for raspberry pulp.

British Columbia exports over a thousand million board feet of lumber to overseas countries per year.

Fire Brigade

(Continued From Front Page)

cause of concern. A check on insurance protection available for men attending a fire was requested.

Co-operation Promised

Chairman Gilmour suggested an early meeting of the brigade and practices to familiarize the men, nearly all new to the procedure, with the equipment. Several items requested would be purchased immediately, he said, and after a few practices he suggested the brigade furnish a further list of requirements. The Commissioners would assist in every way possible and when the equipment was turned over to the brigade they would expect it to be well looked after. The chief replied a double team would be created in order to have at least two men familiar with each assigned duty. He arranged to inspect fire hydrants with J. Arnold, works foreman.

Report Given

Chairman Gilmour requested Mr. Arnold to report the condition of the fire fighting equipment when it was recently inspected. This was substantially the same as the information given the Commissioners' meeting on June 24 with the added statement that the gas mask was found to contain a charge dated 1932, indicating it had not been replaced annually as required.

"The Ratepayers"

Chairman Gilmour commented during Friday night's Commissioners' meeting on the absence of an expected delegation from the Ratepayers' Association. He appeared to believe that "property owners" rather than "ratepayers" should be concerned in the matter. J. S. Daly, chairman of the Ratepayers' Association special committee, questioned by The News on Saturday, stated that the committee had purposely refrained from attending, realizing that Mr. Dowling of the Underwriters would take up a good deal of the Commissioners' time and canvass the same ground they would. A check of the membership of the Ratepayers' Association, he said, revealed this was only a convenient name for the body as all but four were property owners and the so-called ratepayers had substantial investments at stake in the town and took an active part in its development.

Brigade Practices

On Monday night several members of the volunteer brigade attended a practice to "test a section of 50 feet of chemical rig hose that might be added in whole or part to that in use." Chief Hulton-Harrop and deputy chief Conway supervised and the chemical equipment was taken out under tow by Herb. Ashdown. Additional 150 feet of hydrant hose had been wound on the reel with the 200 feet of hose purchased some months ago.

CHILLIWACK BUYS PUMPING EQUIPMENT FOR FIRE BRIGADE

A new pumper, with tank, hose, ladder and other modern equipment mounted on a two-ton truck has been purchased by Chilliwack city. Lowest of four bids, the equipment will be delivered Oct. 1 at a cost, including freight via Panama from Ontario, of about \$3800. Present equipment will be retained. The action of the council follows defeat of a \$15,000 project at the polls last year.

TEACHERS SPENDING "POSTMAN'S HOLIDAY" ATTENDING SCHOOL

LUNDSTROM—CROAKER

On Friday July 8, the home of Mr. C. Croaker, Greenlake district, Seattle, was the setting for the wedding of Edna Evelyn, daughter of Mr. George Croaker of Mt. Lehman to Mr. Robert Lundstrom, son of Mrs. D. Lundstrom and the late Mr. D. Lundstrom of Matsqui.

Given in marriage by her uncle, Mr. W. Croaker, the bride was attended by her sister, Mrs. R. Hutchinson, while Mr. Hutchinson supported the groom.

An informal reception was held at the home of the bride's uncle, where the bride's table was presided over by Mrs. C. Croaker assisted by Mrs. K. Hutchinson.

After a short honeymoon spent in Seattle, Mr. and Mrs. Lundstrom left for Matsqui, where they will make their home.

The couple were greeted at Jubilee hall by a number of friends.
